242	acesyn	Section Header: <i>The following questions are about adverse childhood experiences and are completely optional. You may not expect questions about childhood on a survey about smoking. There's been very limited research on LGBTQI2S+ communities on this subject, despite the understanding that many experiences can have lifelong impacts on our lives, including health behaviours such as smoking, vaping, and chronic diseases. The information you provide will be used to further develop safe, accessible services that reflect the broad life experiences that may impact smoking behaviours. It will further inform other research for LGBTQI2S+ folks as well including risk factors for smoking. You've gotten to this point in the survey, so you know this research project is about your journey through life. We ask that you pause and make sure you're in a place to answer questions about your childhood that may be triggering. Again these questions can be completely skipped if you don't want to see it or answer. Thank you again.</i> Would you like to answer these questions?	yesno, Required <table border="1"> <tr><td>1</td><td>Yes</td></tr> <tr><td>0</td><td>No</td></tr> </table> Custom alignment: LV	1	Yes	0	No
